

Donation from Josie deSilva --- Accession #2009-13  
 Contemporary Club Papers  
 August 7, 2009

The Richardson-Sloane Special Collections Center has previously cataloged this series as SC 374.3 CON and appears to have a complete run of the papers 1896-2007. Some of the titles are partially present in the online catalog. At this time no complete listing or index of titles or authors is apparent to me. There are some single papers cataloged and on public shelf.

This donation consists mainly of individually published papers. There are four published as volumes and several published speeches/remarks made by Hon. Clyde H. Tavenner of Illinois House of Representatives ca 1916.

The donor's grandfather, Roland Henry HARNED (1864-1937), was a member of the club. The donor kept papers authored by her grandfather, but stated if his were NOT already in our collection to give her a call.

kmo
