

2012-32 Fairmount Cemetery Association Records

These records were obtained from the basement of the Crematorium building by Amy Groskopf and Karen O'Connor at the request of Robert C. Stradt on behalf of the Association. Contact person was Debra Kronfeld.

The records were in no order and had been in the basement environment for an unknown period of time. They had a very strong odor and much of the collection had been water damaged or fire damaged at some point. Condition varies greatly.
